

# FAIRMONT GIRL IS UNDER ARREST

Is Charged With Abandon-  
ing an Infant in Pitts-  
burgh.

FAIRMONT, May 21.—A 6-weeks-old baby boy found May 12 atop the lid of a rubbish box in a hallway on the second floor of the Speer building, North street, this city, has been identified as Roy Zinn, Jr. The mother, Mrs. Georgia Zinn, aged 23, was brought here yesterday from her home in Fairmont, W. Va., on a warrant charging her with abandonment. Mrs. Zinn, married three years, she says, but separated from her husband, whose whereabouts she does not know, evinced little interest in her baby, according to the detectives. After being detained here several hours, she had not asked to see the child. The baby was removed to Rosaline Home within a few hours after being found, and is reported to be thriving. The baby was identified through birth records of a local hospital. It will be turned over to the maternal grandparents in Fairmont. Mrs. Zinn was held.

## WESTERN OPEN

(Continued from page one.)

Five points to deliver to thirteen principal lines east thereof including Chicago and Alton, Chicago & Burlington & Quincy, and Illinois Central within twenty days after May 25, total of 13,000 serviceable open top cars. All car service orders conflicting with this order are suspended. No. 1 requires movement of 25,000 box cars from eastern and southern lines to Western lines at Chicago, St. Paul, St. Louis, Sioux City and Peoria.

**Today's Car Supply.**  
On the Monongah division of the Baltimore & Ohio railroad today there are 631 cars and the early morning movement was 571. Eighty mines are in today because of the short car supply. The cars are classified as follows: Open, 534; coke, 22; n. e. 2, 1; M. V. T., 72. The mines today ordered 1403 cars of which 22 were ordered for coke loading. Cars left from the previous day were 1403.

Car supply on the Monongahela railroad today was slim with but 35 cars in the West Virginia district and 111 cars in the Pennsylvania district. A fifty per cent car supply is promised for the West Virginia district on Saturday.

Again the car supply was ragged on the Helen's Run and Wyatt-Bingamon branches of the Western Maryland railroad, there having been fourteen empties. Some of these cars are loaded with slag so that there is a possibility of not even eighteen empties being available today on these branches.

The failure of empties to arrive on the Western Maryland branches is assigned to car shortage generally, there being none received at Bowest Junction.

Commercial coal loading will be light today. There will probably be but 75 cars on the Baltimore & Ohio railroad while the Monongahela will practically have none, only two cars in the lines were placed other than Canadian-Pacific railroad assigned cars.

**Daily Loading.**  
Fairmont region on Thursday loaded 534 cars of coal and coke—536 cars of coal and 12 cars of coke.

Mines along the Monongah division of the Baltimore & Ohio railroad on Thursday loaded 591 cars of coal and coke—579 cars of coal and 12 cars of coke. There were 514 cars of coal loaded east and 65 cars of coal loaded

## OUTBURSTS OF EVERETT TRUE

(BY CONDO)

west. Of the 12 cars of coke loaded yesterday there were eight for the west and four for the east. Wagon mines along the division on Thursday loaded three cars of coal.

No coal was loaded in the West Virginia district of the Monongahela railroad on Thursday owing to the lack of any placements. In the Pennsylvania district the mines loaded 192 cars on this line. The Pennsylvania railroad is moving coal out of Brownsville, Pa., quite favorably. On Thursday 419 cars of coal and coke were moved. As yet no coal movement has taken place on the Pittsburgh & Lake Erie railroad out of Brownsville. This morning the loads of coal and coke accumulated at Brownsville were down to 415.

On the Helen's Run and Wyatt-Bingamon branches of the Western Maryland railroad on Thursday there were seven cars of coal loaded.

**Daily Shipments.**  
These shipments were made off the Baltimore & Ohio railroad on Thursday: Curtis Bay, 190 cars; lakes, 2 cars; Michigan points, 5 cars; Ohio points, 31 cars; miscellaneous western shipments 27.

**Railroad Fuel.**  
Railroad fuel loading along the Baltimore & Ohio railroad on Thursday totaled 138 carloads. The Baltimore & Ohio railroad on Thursday secured 104 cars of coal; P. & R., 45 cars; Central of New Jersey, 19 cars; New York Central, 13 cars. Lehigh Valley dropped to one car. Six cars of coal were secured by the Maine Central.

**East of Grafton.**  
There were twenty-one trains drawn east of Grafton on the Baltimore & Ohio railroad (there having been 1023 loads in them).

**On the Job Again.**  
R. A. Johnson of the Crescent Fuel Company, is about again after being confined to his home for a week.

**Officials Return.**  
W. W. Jamison, J. C. Jamison, C.

tion Day the offices of a number of coal offices were closed this afternoon. All employees of The Consolidation Coal Company offices in the Watson building were left off at noon today.

**Encourages Gardens.**  
In keeping with the usual policy The Consolidation Coal company has encouraged its employees to farm gardens at the various mining towns. Due to the continued need for home production of food products, especial attention will be given to vegetable gardening this year, the object being to raise the largest possible crops on the ground available for cultivation.

In judging this year, the vegetables only will be considered. No men on the monthly pay roll are eligible for garden prizes.

The company offers three cash prizes to each group of mines as listed below, for the best vegetable gardens grown in each group of mines during the summer of 1932, by its employees as follows: Group first prize, \$15; group second prize, \$10; group third prize, \$5. The mines will be divided into ten competing groups, each group to receive a first, second and third prize, as noted in the foregoing, in addition to being eligible in the competition for the division prizes.

Competing mines of each group are as follows:

Group No. 1—Murray, Nos. 45-93; Montana, No. 24. Group No. 2—Shaft, No. 38; New England, No. 26; Berryburg, No. 37. Group No. 3—Monongah, Nos. 22-43-63; Penno, No. 68. Group No. 4—Anderson, No. 59; Highland, No. 36; Middleton, Nos. 47-92; Chiefton, No. 23; Enterprise, No. 49. Group No. 5—Hutchinson, No. 84; Owings, No. 22; Gypsy, Nos. 21-91. Group No. 6—Viropa, No. 40; Riverdale, No. 66; Ehlen, No. 51; Robinson Run, No. 42. Group No. 7—Meadowbrook, No. 55; Fall Run, No. 45; Dunham, No. 27. Group No. 8—Pimickinick, No. 25; Columbia, No. 29. Group No. 9—Pooz, No. 54; Perry, Nos. 50-94; Coaling Sta., No. 62. Group No. 10—Ida May, No. 87; Carolina, No. 86; Wyatt, Nos. 88-99-90.

This makes a total of thirty prizes in addition to the Division or Region prize which will be given to the best three gardens in the whole division as follows:

Division first prize.....\$25.00  
Division second prize..... 15.00  
Division third prize..... 10.00

In judging the gardens for awarding the prizes, variety, arrangement of vegetables planted and condition in which garden is kept will count 50 points; quality of vegetables planted as compared with the ground available, will make up the remaining 50 points. In judging, surrounding conditions such as condition of the soil, local obstacles met in making a garden, etc., will be considered, as well as the number in family who can work in the garden.

E. Cowan, J. S. Amend, George B. Taylor, and E. B. Agee, Greensburg, Pa., the latter auditor of the Marion Gas Coal company, returned to Greensburg last night after being in the region for several days.

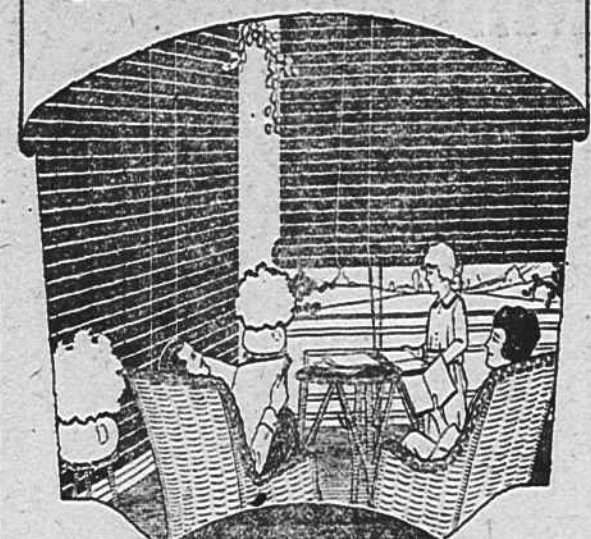

Half Holiday.  
Owing to this being American Le.
